Subject: Updated Slides for October 17 Presentation and PulverDryer Information
Attachments: PROPOSED SLIDE OUTLINE FOR OCTOBER 17_2014_MTG.doc; 10-6-14 AE EPA KZOO SUMMARY PROJECT REVIEW[1].pdf

To All -

Attached are two items. First, I have expanded on what I sent yesterday and have proposed a series of about 10 slides total. Slide #1 may need to be divided up into a couple of slides and Slide #2 is too "busy" and will need to be modified. Note that I'm strictly looking at content for each slide at this point. I'll dress them up later with pictures/icons/etc....

These slides and the presentation are a work in progress. I'll keep working on it and any and all comments and suggestions would be appreciated.

Second, I've attached a .pdf of the PulverDryer information. Sorry for the delay on getting this out - I was just able to get this from PulverDryer yesterday. I will be meeting with City Manager Ritsema soon on the PulverDryer presentation as well as some of their "pro forma" information.

Michael - I also have some thoughts that may help with the letter that is being drafted to the Mayor re: emerging technologies. I'll send those comments in a separate email.

Thanks.

Bruce
